Seesatz  
CH-6204 Sempach  
Switzerland

Year built: 2006  
Furniture:  
**open up, activation,  
working wall, talk  
about, invitation**

Photos top: Main entrance and colourful canteen area

Friendly reception hall with a walnut reception desk made in the neighbouring carpentry shop.

For its new head office, Braun Medical AG wanted the "Office Concept 2010" to be implemented primarily in order to create synergies. A prerequisite for this was a design of modern and open spaces which would foster communication on all levels and streamline the work processes. In the actual offices, team and group workstations dominate. They ensure short communication distances in the decision making process and help to avoid red tape.

One of the open space offices which offer maximum openness while enabling privacy and acoustic protection. Created with the **activation** system in conjunction with **working wall**. Cells for reflection are provided in the form of class cubes.

All workstations with **activation solo** are height-adjustable and can be controlled according to individual needs.

Light filled corridors ensure a friendly daylight situation in the whole building. Plants provide a pleasant atmosphere.

**activation** cupboards act as the substructure for showcases.

**activation**  
fosters  
spontaneous  
meetings.

Conference room with the **invitation** table system.
